- Note 1: Columns 4, 7, and 8 apply only to accelerated investment incentive properties (AIIPs) (see Regulation 1104(4) of the Income Tax Regulations for the definition), zero-emission vehicles, and zero-emission passenger vehicles. In this chart ZEV represents both zero-emission vehicles and zero-emission passenger vehicles. An AIIP is a property (other than ZEV) that you acquired after November 20, 2018 and became available for use before 2028. A ZEV is a motor vehicle included in Class 54 or 55 that you acquired after March 18, 2019 and became available for use before 2028. For more information on AIIP and ZEV, see guide T4002.
- Note 2: The proceeds of disposition of a zero-emission passenger vehicle (ZEPV) that has been included in Class 54 and that is subject to the \$55,000 capital cost limit will be adjusted based on a factor equal to the capital cost limit of \$55,000 as a proportion of the actual cost of the vehicle. For dispositions after July 29, 2019, the government proposes that the actual cost of the vehicle be adjusted for any payments or repayments of government assistance that you may have received or repaid in respect of the vehicle. For more information on proceeds of disposition, read Class 54 in guide T4002.
- Note 3: The relevant factors for properties available for use before 2024 are 2 1/3 (classes 43.1 and 54), 1 1/2 (class 55), 1 (classes 43.2 and 53), 0 (classes 12, 13, 14, 15), and 1/2 for the remaining accelerated investment incentive properties

For more information on accelerated investment incentive properties, see guide T4002 or go to canada.ca/taxes-accelerated-investment-income.
